

Grab your wetsuit! We're going on a deep sea adventure.

This half term, we'll visit an aquarium to gain an insight into the ocean world. We'll sketch different creatures and create clay sculptures of our favourite. Writing poems inspired by our favourite sea creatures will help us to develop a rich vocabulary. Using maps, globes and atlases, we'll identify the world's oceans and seas. We'll also find different ways of grouping living things. Diving back into the 1800s, we'll learn all about the HMS *Challenger*. We'll research Jacques Cousteau and write biographies about his exciting explorations. As a challenge, we'll create model submarines using recycled materials and program an onscreen submarine. We'll study Antony Gormley's *Another Place* sculpture and write reviews. After locating the Great Barrier Reef on a map, we'll learn about the risks it faces.

At the end of the ILP, we'll listen to the soothing sounds of whale song and write ballads about whales. We'll invite you to visit our 'Oceans art gallery' and deliver workshops about sustainability.

ILP focus	Expressive arts
<b>Languages, literacy and communication</b>	Poetry using personification, dilemma stories, biography, persuasive letters, ballads
<b>Expressive arts</b>	Observational drawing, 3-D models, clay sculpture, Anthony Gormley – another place, batik art, printing, famous seascapes
<b>Science and technology</b>	Submarine design, working models, programming, video editing, multimedia presentations, living things and their habitats, animals, including humans, working scientifically
<b>Humanities</b>	Seas and oceans of the world, the Great Barrier Reef, environmental issues, 19th century ocean exploration
<b>Mathematics and numeracy</b>	Data handling

## Help your child prepare for their project

Oceans are remarkable and fascinating places that are full of life. Why not visit the coast together to see an ocean or sea up close? You could also look at an atlas or online map to find out which seas and oceans surround Britain. Alternatively, work together to create an under-the-sea collage using different materials to represent the plants, creatures and water.
