

Acceptable Use Policy for ICT and related technologies
For KS2 Learners - June 2020

School policy

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safer internet access at all times.

This Acceptable use agreement is intended to ensure:

- That learners will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- That school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that learners will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users.

Acceptable use agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the school will monitor my use of systems, devices and digital communications
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it
- I will be aware of "stranger danger", when I am communicating online
- I will not disclose or share personal information about myself or others when online (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details, etc.)
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it online.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school systems and devices are primarily intended for educational use and that I will only use them for personal or recreational use if I have permission
- I will only make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work, if I have permission

I will act as I expect others to act toward me:

- I will respect others' work and property and will only access, copy, remove or alter any other user's files, with the owner's knowledge and permission
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions
- I will only take or distribute images of others with their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school.

- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials
- I will immediately report any damage or faults involving equipment or software, however this may have happened
- I will only open hyperlinks in emails or attachments to emails, if I know and trust the person/organisation who sent the email, and have no concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)

When using the internet for research for recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information)
- I understand that if I fail to comply with this acceptable use agreement, I may not be able to use the computer equipment in future.

Declaration

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own equipment out of the school/ in a way that is related to me being a member of this school, e.g. communicating with other members of the school, accessing school email, learning platform, website, etc.

I have read the above Acceptable Use Policy and understand that by signing up and using school devices, school platforms, such as Google Drive, Seesaw etc that I am agreeing to adhere to the policy.
